

2009 Three-Tier Prescription Drug List Reference Guide

Your UnitedHealthcare pharmacy benefit offers flexibility and choice in finding the right medication for you.

This guide will:

1. Help you understand your medication choices and make informed decisions.
2. Help you understand which questions to ask your doctor or pharmacist.

What is a Prescription Drug List (PDL)?

A PDL is a list of Food and Drug Administration (FDA)-approved brand name and generic medications.

Your UnitedHealthcare pharmacy benefit provides coverage for a comprehensive selection of prescription medications. Below you will find some commonly prescribed medications for certain conditions. You and your doctor may refer to this list to select the right medication to meet your needs.

The benefit plan documents provided by your employer or health plan include a Summary Plan Description (SPD) or a Certificate of Coverage (COC). Please refer to these documents to determine which medications are covered under your individual plan.

Understanding Tiers

Prescription medications are categorized within three tiers. Each tier is assigned a copayment, the amount you pay when you fill a prescription, which is determined by your employer or health plan. Consult your benefit plan documents to find out the specific copayments, coinsurance and deductibles that are part of your plan.

Some plans may require you to pay the entire cost of the medication until the plan deductible has been met, or may require you to meet a deductible before copayments or coinsurance applies.

Tier 1 – Your Lowest-Cost Option

This is your lowest copayment option. For the lowest out-of-pocket expense, you should always consider Tier 1 medications if you and your doctor decide they are right for your treatment.

Tier 2 – Your Midrange-Cost Option

This is your middle copayment option. Consider Tier 2 medications if you and your doctor decide that a Tier 2 medication is right for your treatment.

Tier 3 – Your Highest-Cost Option

This is your highest copayment option. Sometimes there are alternatives available in Tier 1 or Tier 2 that may be appropriate to treat your condition. If you are currently taking a medication in Tier 3, ask your doctor whether there are Tier 1 or Tier 2 alternatives that may be right for your treatment.

Compounded medications, medications with one or more ingredients that are prepared “on-site” by a pharmacist, are classified at the Tier 3 level.

Please note: *Some plans have a two-tier pharmacy benefit rather than a three-tier pharmacy benefit. Generally, a two-tier closed pharmacy benefit plan does not cover medications classified in Tier 3 of this PDL. A two-tier open pharmacy benefit plan covers one tier at the lower copayment and covers a second tier at a higher copayment.*

In addition, some plans have a four-tier prescription plan. Refer to your enrollment materials, check the Drug Pricing / Coverage information on www.myuhc.com, or call the Customer Care number on your ID card for more information about your benefit plan.

If you have pharmacy benefit coverage with UnitedHealthcare, you may learn more about your benefit by visiting www.myuhc.com or by calling the Customer Care telephone number printed on your ID card. If you are not currently enrolled with UnitedHealthcare for pharmacy benefit coverage, you may access www.myuhc.com for additional information during your open enrollment period or you may contact your employer or health plan for additional information.

In certain documents, the Prescription Drug List (PDL) was referred to as the “Preferred Drug List (PDL).” This change in descriptive terms does not affect your benefit coverage.

Where differences are noted between this PDL reference guide and your benefit plan documents, the benefit plan documents will govern.

Who decides which medications get placed in which tier?

The UnitedHealthcare PDL Management Committee makes tier placement decisions to help ensure access to a wide range of medications and control health care costs for you and your employer or health plan. The PDL Management Committee is comprised of senior level UnitedHealth Group physicians and business leaders. You and your doctor decide which medication is appropriate for you.

What factors does the PDL Management Committee look at to make tier placement decisions?

The PDL Management Committee decides the tier placement of a particular prescription medication based upon clinical information from the UnitedHealthcare Pharmacy and Therapeutics (P&T) Committee and economic and financial considerations. The Committee looks at the overall health care value of a particular medication in order to balance the need for flexibility and choice for our members and an affordable pharmacy benefit for employer groups and health plans.

How often will prescription medications change tiers?

Medications may move to a higher tier once per calendar year (January 1). Additionally, when a brand name medication becomes available as a generic, the tier status of the brand name medication will be evaluated. When a medication changes tiers, you may be required to pay more or less for that medication. These changes may occur without prior notice to you. For the most current information on your pharmacy coverage, please call the Customer Care number on your ID card or visit www.myuhc.com.

What is the difference between brand name and generic medications?

Generic medications contain the same active ingredients as brand name medications, but they often cost less. Generic medications become available after the patent on the brand name medication expires. At that time, other companies are permitted to manufacture an FDA-approved, chemically equivalent medication. Many companies that make brand name medications also produce and market generic medications.

The next time your doctor gives you a prescription for a brand name medication, ask if a generic equivalent is available and if it might be appropriate for you since generic medications are your lowest cost option. Go to myuhc.com to determine the copayment for your generic medication.

Why is the medication that I am currently taking no longer covered?

Medications may be excluded from coverage under your pharmacy benefit. For example, a prescription medication may be excluded from coverage when it is therapeutically equivalent to an over-the-counter or prescription medication. Alternatives on the PDL and other over-the-counter medications may be available.

When should I consider discussing over-the-counter or non-prescription medications with my doctor?

An over-the-counter medication can be an appropriate treatment for many conditions. Consult your doctor about over-the-counter alternatives to treat your condition. These medications are not covered under your pharmacy benefit, but they may cost less than your out-of-pocket expense for prescription medications.

If you have pharmacy benefit coverage with UnitedHealthcare, you may learn more about your benefit by visiting www.myuhc.com or by calling the Customer Care telephone number printed on your ID card. If you are not currently enrolled with UnitedHealthcare for pharmacy benefit coverage, you may access www.myuhc.com for additional information during your open enrollment period or you may contact your employer or health plan for additional information.

In certain documents, the Prescription Drug List (PDL) was referred to as the "Preferred Drug List (PDL)." This change in descriptive terms does not affect your benefit coverage.

Where differences are noted between this PDL reference guide and your benefit plan documents, the benefit plan documents will govern.

Why are there notations next to certain medications in the PDL, and what do they mean?

The specific definitions for these notations (**OLL**, **QD**, **N**, etc.) are listed at the bottom of each page of the PDL and refer to our pharmacy programs. These programs can help:

- Confirm coverage based on your benefit plan
- Alert pharmacists and doctors of potentially harmful medication interactions
- Notify your pharmacist and doctor of duplication in treatments

Please call Customer Care if you need additional information about these notations.

What should I do if I use a self-administered injectable medication?

You may have coverage for self-administered injectable medications through your pharmacy benefit plan. UnitedHealthcare has developed a specialty pharmacy network for these medications. Please call our toll-free Specialty Pharmacy Referral Line at 1-866-429-8177 where a representative will answer questions about our program and then transfer you to a specialty pharmacy based on your particular specialty medication prescription.

How do I access updated information about my pharmacy benefit?

Since the PDL may change periodically, we encourage you to visit www.myuhc.com or call the Customer Care number on your ID card for more current information.

Log on to myuhc.com for the following pharmacy resources and tools:

- Pharmacy benefit and coverage information
- Specific copayment amounts for prescription medications
- Possible lower-cost medication alternatives
- A list of medications based on a specific medical condition
- Medication interactions and side effects, etc.
- Locate a participating retail pharmacy by zip code
- Review your prescription history

And, if mail order is included in your pharmacy benefit, you can also:

- Refill prescriptions
- Check the status of your order
- Set up e-mail reminders for refills
- Manage your account

What if I still have questions?

Please call the Customer Care number on your ID card. Representatives are available to assist you 24 hours a day, except Thanksgiving and Christmas.

If you have pharmacy benefit coverage with UnitedHealthcare, you may learn more about your benefit by visiting www.myuhc.com or by calling the Customer Care telephone number printed on your ID card. If you are not currently enrolled with UnitedHealthcare for pharmacy benefit coverage, you may access www.myuhc.com for additional information during your open enrollment period or you may contact your employer or health plan for additional information.

In certain documents, the Prescription Drug List (PDL) was referred to as the "Preferred Drug List (PDL)." This change in descriptive terms does not affect your benefit coverage.

Where differences are noted between this PDL reference guide and your benefit plan documents, the benefit plan documents will govern.

2009 Three-Tier Prescription Drug List Reference Guide

Tier One

Acarbose	Betamethasone Dipropionate Cream, Lotion, Ointment, Gel	Clotrimazole Troches
Acebutolol	Betamethasone Valerate	Clotrimazole with Betamethasone
Acetaminophen with Caffeine and Butalbital	Betamethasone with Clotrimazole	Colestipol
Acetaminophen with Codeine QLL/QD	Bisoprolol	Cromolyn
Acetaminophen with Codeine, Caffeine and Butalbital QLL/QD	Bisoprolol with Hydrochlorothiazide	Cryselle
Acetaminophen with Hydrocodone QLL/QD	Bromocriptine	Cyclobenzaprine
Acetazolamide	Bumetanide	Cyproheptadine
Acetic Acid with Hydrocortisone Otic Solution	Bupropion	Desipramine
Acyclovir Tablet, Capsule, Suspension	Bupropion Sustained Action N	Desmopressin
Albuterol Extended Release Tablet	Bupropion Sustained Release 24 Hour QLL, N	Desonide
Albuterol Inhalation Solution	Buspirone	Desoximetasone
Albuterol Sulfate/Ipratropium Solution, Non-Oral	Butorphanol Nasal Spray QLL	Dexamethasone
Alendronate QLL	Cabergoline	Dextroamphetamine
Allopurinol	Calcipotriene Solution, Topical QLL	Dextroamphetamine Sustained Release
Alprazolam	Calcitriol	Diazepam
Alprazolam Extended Release	Captopril	Diclofenac
Amantadine Tablet, Capsule, Syrup	Captopril with Hydrochlorothiazide	Diclofenac Sodium Drops
Amiloride with Hydrochlorothiazide	Carbamazepine	Dicloxacillin
Amiodarone	Carbidopa/Levodopa	Dicyclomine
Amitriptyline	Carisoprodol	Diflorasone
Amitriptyline with Chlordiazepoxide	Carvedilol	Diflunisal
Amitriptyline with Perphenazine	Cefaclor	Digoxin
Amlodipine Besylate	Cefadroxil	Diltiazem
Amlodipine and Benazepril QLL	Cefdinir QLL	Diphenoxylate
Amoxicillin	Cefprozil	Diphenoxylate with Atropine
Amoxicillin with Potassium Clavulanate	Cefuroxime	Dipyridamole
Amphetamine with Dextroamphetamine Salt Combination	Cephalexin	Divalproex Sodium Tablet, Enteric Coated
Ampicillin	Cesia	Doxazosin
Antipyrine with Benzocaine Otic Solution	Chlordiazepoxide	Doxepin
Apri	Chlorhexidine	Doxycycline
Asmanex QLL	Chlorthalidone	Dronabinol
Aspirin with Caffeine and Butalbital	Chlorzoxazone	Econazole
Aspirin with Codeine, Caffeine and Butalbital	Cholestyramine	Enalapril
Atenolol	Cholestyramine with Aspartame	Enalapril with Hydrochlorothiazide
Atenolol with Chlorthalidone	Ciclopirox Gel, Topical	Enpresse
Aviane	Ciclopirox Solution, Topical	Eplerenone
Azathioprine	Cilostazol	Ergotamine Tartrate, Belladonna Alkaloids and Phenobarbital
Azithromycin	Ciprofloxacin	Errin
Baclofen	Ciprofloxacin Tablet, Sustained Release, 24 Hour	Erythromycin Base 250, 333mg
Balsalazide Disodium	Citalopram	Erythromycin Ethylsuccinate
Benazepril	Clarithromycin	Erythromycin Stearate
Benazepril with Hydrochlorothiazide	Clarithromycin XL	Erythromycin with Benzoyl Peroxide
Benzonatate	Clidinium with Chlordiazepoxide	Estradiol Patch QLL
Benzotropine	Clindamycin Capsule	Estradiol/Norethindrone Acetate 1mg/0.5mg
Betamethasone Dipropionate Augmented Cream	Clindamycin Gel, Soln, Lotion, Swabs	Estropipate
	Clindamycin Vaginal Cream	Ethinyl Estradiol/Drospirenone 0.3mg/3mg
	Clobetasol	Etidronate Disodium
	Clobetasol Propionate Foam QLL	Etodolac
	Clomiphene	Famciclovir QLL
	Clomipramine	Fast Take Test Strips QLL, DS
	Clonazepam	Felodipine
	Clonidine	
	Clorazepate	

Some medications are noted with N, QD, QLL, or DS. The definitions for these symbols are listed below. Your benefit plan determines how these medications may be covered for you.

N = Notification. There are a few medications that your doctor must notify us of to make sure their use is covered within your benefit.

P = Progression Rx.

QD = Quantity Duration. Some medications have a limited amount that can be covered for a specific period of time.

QLL = Quantity Level Limit. Some medications have a limited amount that can be covered at one time.

DS = Diabetic Supplies. Diabetic supplies may be covered by your benefit plan.

½T = Eligible for Half Tablet Program.

2009 Three-Tier Prescription Drug List Reference Guide

Fenofibrate Micronized 54, 67, 134, 160, 200mg	Imipramine	Methyldopa
Fentanyl Citrate Lollipop QLL/QD, N	Indapamide	Methylphenidate
Fentanyl Transdermal System QLL/QD	Indomethacin	Methylphenidate Extended-Release
Fexofenadine	Ipratropium Inhalation Solution	Methylprednisolone
Finasteride N	Isometheptene, Dichloralphenazone and Acetaminophen	Methyltestosterone with Esterified Estrogens
Flecainide	Isoniazid	Metoclopramide
Fluconazole 50, 100, 200mg N	Isosorbide Dinitrate	Metolazone
Fluconazole 150mg	Isosorbide Mononitrate	Metoprolol
Fludrocortisone	Isotretinoin	Metoprolol Succinate Sustained Release
Flunisolide Nasal Spray	Isradipine	Metronidazole
Fluocinolone	Itraconazole QD, N	Metronidazole Cream
Fluocinonide	Junel	Metronidazole Vaginal Gel
Fluocinonide-E	Junel FE	Microgestin
Fluorometholone	Kariva	Microgestin FE
Fluorouracil Cream	Ketoconazole	Minocycline
Fluoxetine	Ketoprofen	Minoxidil Tablet
Flurazepam	Ketorolac	Mirtazapine
Flurbiprofen	Labetalol	Mirtazapine Dispersible Tablet QLL
Fluticasone Nasal Spray QLL	Lactulose	Misoprostol
Fluvoxamine	Lamotrigine	Moexipril $\frac{1}{2}$ T
Folic Acid	Leflunomide	Mometasone
Foradil QLL	Lessina	Mononessa
Fortical	Leuprolide	Morphine
Fosinopril	Levonorgestrel-Ethinyl Estradiol Tablet, Dosepack, 3 Month QLL	Morphine Sulfate Controlled Release QLL/QD
Fosinopril with Hydrochlorothiazide	Levorphanol Tartrate	Mupirocin Ointment
Freestyle Lite Test Strips QLL, DS	Levothyroxine	Mycophenolate Mofetil
Freestyle Test Strips QLL, DS	Levora	Nabumetone
Frova QLL	Lidocaine Viscous	Nadolol
Furosemide	Lisinopril	Nadolol/Bendroflumethiazide
Gabapentin Capsule, Tablet	Lisinopril with Hydrochlorothiazide	Naproxen - Prescription strengths only
Galantamine	Lithium Carbonate	Necon
Gemfibrozil	Lithium Carbonate Controlled-Release	Nefazodone
Gentamicin	Lithium Carbonate Extended-Release	Neomycin/Polymyxin B/Dexamethasone
Glimepiride	Lorazepam	Neomycin/Polymyxin/Gramicidin
Glipizide	Lovastatin	Neomycin/Polymyxin/Hydrocortisone
Glipizide Extended-Release	Low-Ogestrel	Nifedipine
Glipizide with Metformin	Maxalt QLL	Nifedipine Controlled-Release
Glyburide	Maxalt MLT QLL	Nifedipine Extended Release
Glyburide Micronized	Mebendazole	Nisoldipine 20, 30, 40mg
Glyburide with Metformin	Medroxyprogesterone 150mg/ml QLL	Nitrofurantoin/Nitrofurantoin Macrocrystals
Glycopyrrolate	Medroxyprogesterone Tablet	Nitrofurantoin Macrocrystals
Granisetron Tablet QLL	Mefenamic Acid	Nitroglycerin
Guanfacine	Mefloquine	Norethindrone
Halobetasol Cream, Ointment	Megestrol	Nortrel
Haloperidol	Meloxicam	Nortriptyline
Hydralazine	Meperidine	Novolin Vials
Hydrochlorothiazide	Meperidine with Promethazine	Novolog Vials
Hydrocodone with Homatropine	Mesalamine Enema	Nystatin
Hydrocortisone Acetate Suppositories	Metformin	Nystatin with Triamcinolone
Hydrocortisone Valerate	Metformin Extended-Release	Ofloxacin Eye Drops
Hydromorphone	Methadone	Ofloxacin Otic Drops
Hydroxychloroquine	Methimazole	Ogestrel
Hydroxyzine	Methocarbamol	
Ibuprofen - Prescription strengths only	Methodretate	
Ibuprofen with Hydrocodone		

Some medications are noted with N, QD, QLL, or DS. The definitions for these symbols are listed below. Your benefit plan determines how these medications may be covered for you.

N = Notification. There are a few medications that your doctor must notify us of to make sure their use is covered within your benefit.

$\frac{1}{2}$ T = Eligible for Half Tablet Program.

2009 Three-Tier Prescription Drug List Reference Guide

Omeprazole 10, 20mg	Promethazine with Phenylephrine and Codeine	Timolol Drops
Omeprazole 40mg QLL/QD	Propafenone	Tizanidine
Ondansetron QLL	Propoxyphene	Tobramycin
One Touch Test Strips QLL, DS	Propoxyphene with Acetaminophen QLL/QD	Tolmetin
One Touch Ultra Test Strips QLL, DS	Propranolol Sustained Action Capsule	Torsemide
Orapred Oral Solution	Propranolol Tablet	Tramadol
Orphenadrine	Propylthiouracil	Tramadol with Acetaminophen QLL
Orphenadrine Compound	Pulmicort Flexhaler QLL	Trandolapril ½T
Oxandrolone	Pulmicort Turbuhaler QLL	Trazodone
Oxaprozin	Quinapril	Tretinoin N
Oxazepam	Quinapril with Hydrochlorothiazide	Tri-Sprintec
Oxcarbazepine	QVAR QLL	Triamcinolone
Oxybutynin	Ramipril Capsule	Triamterene with Hydrochlorothiazide
Oxybutynin Sustained Release	Ranitidine Syrup	Triazolam
Oxycodone	Reclipsen	Trimethobenzamide
Oxycodone with Acetaminophen QLL/QD	Relpax QLL	Trimethobenzamide with Benzocaine
Oxycodone with Aspirin	Ribavirin QLL, N	Trimethoprim
Oxycodone with Ibuprofen QLL	Rifampin	Trimipramine Maleate
Pantoprazole QLL/QD	Risperidone QLL	Trinessa
Paroxetine	Ropinirole	Trivora
Paroxetine HCl Sustained Release 24 Hour QLL	Salsalate	Ursodiol
PEG 3350/Powder for Solution	Selenium Sulfide	Velivet
Penicillin V Potassium	Sertraline ½T	Venlafaxine QLL
Pentoxifylline	Silver Sulfadiazine	Verapamil
Permethrin Cream	Simvastatin	Warfarin
Phenazopyridine	Sodium Fluoride	Xopenex HFA QLL
Phenobarbital	Solia	Zaleplon QLL/QD
Phenylephrine with Chlorpheniramine and Scopolamine	Sotalol	Zolpidem QLL/QD
Phenylephrine with Hydrocodone	Spirolactone with Hydrochlorothiazide	Zomig QLL
Phenytoin	Spirolactone	Zomig ZMT QLL
Pindolol	Sprintec	Zonisamide
Piroxicam	Sucralfate	Zovia 1/35E
Polymyxin B with Trimethoprim	Sulfacetamide	Zovia 1/50E
Portia	Sulfacetamide with Sulfur	
Potassium Chloride	Sulfamethoxazole with Trimethoprim	
Potassium Citrate	Sulfasalazine	
Pravastatin	Sulfasalazine EC	
Prazosin	Sulfatrim	
Precision Q-I-D Test Strips QLL, DS	Sulindac	
Precision Xtra Test Strips QLL, DS	Surestep Test Strips QLL, DS	
Prednisolone	Tamoxifen	
Prednisone	Temazepam	
Prenatal Vitamins - Generic prescription strengths only	Terazosin	
Primidone	Terbinafine Tablet N	
Probenecid	Terbutaline	
Prochlorperazine	Terconazole Cream	
Promethazine	Terconazole Suppository	
Promethazine with Codeine	Tetracycline	
Promethazine with Dextromethorphan	Theophylline	
Promethazine with Phenylephrine	Theophylline Anhydrous Tablet, Sustained Action	
	Thyroid	

Some medications are noted with N, QD, QLL, or DS. The definitions for these symbols are listed below. Your benefit plan determines how these medications may be covered for you.

Some medications are noted with N, QD, QLL, or DS. The definitions for these symbols are listed below. Your benefit plan determines how these medications may be covered for you.

N = **Notification**. There are a few medications that your doctor must notify us of to make sure their use is covered within your benefit.

P = **Progression Rx**.

QD = **Quantity Duration**. Some medications have a limited amount that can be covered for a specific period of time.

QLL = **Quantity Level Limit**. Some medications have a limited amount that can be covered at one time.

DS = **Diabetic Supplies**. Diabetic supplies may be covered by your benefit plan.

1/2T = **Eligible for Half Tablet Program**.

Excluded = Many benefit plans exclude coverage of medications that are classified by the Pharmacy and Therapeutics Committee as therapeutically equivalent to over-the-counter medications. Check your benefit plan documents for coverage information or call the Customer Care number on your ID card for more information.
