About The Charities . . .

The **United Way of Clinton County** helps fund numerous service agencies that improve the quality of life for many of our neighbors, family members, and friends. More than 99 percent of the money donated to the organization benefits programs in Clinton County. For more information and a full list of the many organizations supported, visit unitedway-clinton.org.

Funds routed through the **American Cancer Society** helps to fund programs of cancer research and education, along with services for cancer patients. One out of nine women will develop breast cancer by the age of 85. The lives of ninety percent of these women can be saved with early detection. Colo-rectal cancer is the more frequent form of intestinal cancer in both men and women. Exams can detect many pre-cancerous conditions. Find out more at cancer.org.

The mission of the **American Heart Association** is to build healthier lives, free of cardiovascular diseases and stroke. That single purpose drives all they do. The need for their work is beyond question. Heart disease and stroke kill more Americans each year than the next seven leading causes of death combined. Stroke is the leading cause of permanent disability. Virtually every major advance in cardiovascular or stroke medicine in the twentieth century was supported or fully funded by the American Heart Association. Find out more at americanheart.org.

Clinton County food pantries support the work performed by the Clinton County Community Action Food Pantry on Nelson Avenue and Sugartree Ministries on East Main Street. Both of these organizations work hard to help local residents avoid food emergencies year-round. For more details on these organizations, visit clintoncap.org and sugartree.org.
